

UNMATCHED PERFORMANCE

# VACUUM GENERATOR (Q-BOX)

## HIGH-PERFORMANCE, ENERGY SAVING, COMPACT & LIGHTWEIGHT

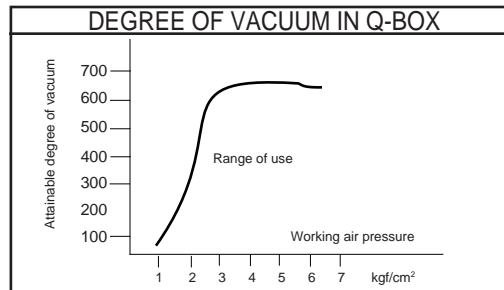

The Q-Box Vacuum Generator responds to the demand for high-performance, energy-efficient absorption equipment for transfer feeding systems. Offering an original nozzle structure, the Q-Box has been used for many years on transfer robots with overwhelming success.

- High-power vacuum of 675 mmHg is obtainable with low pressure of 3-5 kg/cm<sup>2</sup> and low air compression.
- Weighs only 5.2 ounces (150 g).
- As compressed air is used, no vibration is produced as in a vacuum pump type unit.
- The proximity switch ensures the checking of vacuum with ease.

Max. contact capacity.....7W  
 Max. service voltage.....DC100V  
 Max. service current.....DC0.25A  
 Max. continuous rating current  
 .....0.5A  
 Max. contact resistance  
 .....below 200mΩ

An industry leader in pressroom automation for more than 30 years, Oriimec provides robots, transfer systems, coil handling equipment and straightener/feeder combination units to customers worldwide. Manufactured in Japan, the Orii line of equipment is engineered to meet the specific needs of each of our customers. All Orii products sold in the U.S. are paired with expert service and technical support from our Erlanger, KY office.
